**CARE THAT YOU  
CAN TRUST**

---

Oryx Communities offers a suite of dynamic home care services that are responsive to you and your lifestyle. Our services are bespoke to you - we empower you to live your life, the way you choose, in your own home.

In addition to clinical and personal care services, we provide tailored services that enable you to live well and continue to be active at home and in your community. Our services evolve as your needs do, from assistance with household chores to organising social activities, or providing support and companionship.

We promote independent living and respect your life choices. We collaborate with you to design a program that enhances your quality of life.

**Oryx Communities believes that all people can thrive given the right support and care. We are guided by our core values of integrity, respect, empathy and empowerment. We focus on people, and how we can enable people to continue to live their life the way they chose.**

Relationships are important to us, and this is at the core of everything we do. Our service is founded in generating genuine relationships

between people to support wellbeing and enhance quality of life. From a place of mutual trust and understanding, we deliver services throughout life that fosters wellbeing and vibrant communities.

We aren't like other home care providers, who often offer set services that can lack flexibility or that personal touch. We are a family based organisation that is interested in you and your specific needs and aspirations.
